

BT7824

EXTERNAL POLE JOINER FOR Ø50MM POLES

The BT7824 is an external joining kit for Ø50mm poles which is designed to extend the drop of System 2 installations. Made from a single piece of 4mm thick heavy duty steel, the joiner easily bolts to the outside of the poles to create a rigid joint. The open tube design allows cables to pass through unimpeded and also provides a cable access point at the join location.

SPECIFICATIONS

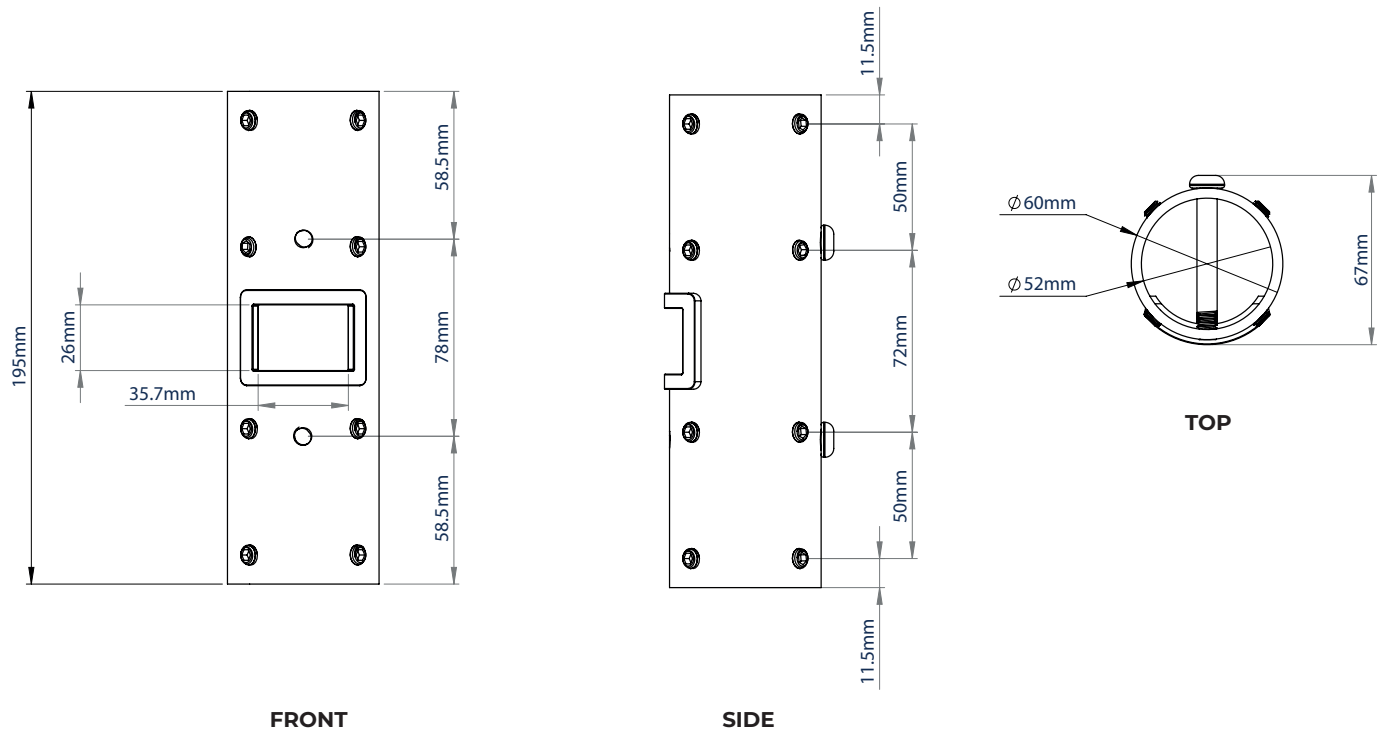

Steel thickness	4mm
Diameter	Ø60mm
Colour Option	Black or Chrome

FEATURES

- 1 Grub screws which allow micro-adjustment of pole angle
 - 2 Supplied with optional short safety bolts to allow cables to pass through
- Allows a rigid external join of 2x Ø50mm poles
 - Heavy duty steel supports substantial loads with minimal movement
 - Provides a cable access point at the pole join
 - Suitable for use with BT7850 and BT7853 poles
