AFPLAN - ATRIUM Floor Plan Manager Licence

Product Description

Exclusive to the KRYPTO online access control range from CDVI, the AFPLAN lets you view the status of your doors on a map in real time from any web browser through the ATRIUM web server.

Activate all door commands live (locked, unlocked, access granted, etc.) thanks to an easy-to-configure drag and drop interface. Upload floor plans in JPG or PNG format for an unlimited number of floors or plans per site.

Only one licence can be used per site.
