

## Datasheet

### V5SR - Surface monitored magnetic lock, LED

#### Product Description

The V5 Series are surface maglocks with a holding force of up to 500kg. They are part of an extensive range of electro-magnetic locks manufactured by CDVI, offering high quality and high performance locking with exceptional features to enhance your installation.

The magnets are delivered with security “catch” ropes to prevent the magnetic lock from falling, preventing the risk of injury when side mounting.

A door positioning monitor ([DPM-500](#)) is available for a more secure system.
