**Watch the Big Screen in Comfort**

**Low Blue Light Design**

Watch Comfortably, with no Eyestrain or fatigue. The image you see on Laser TV screen is reflected instead of directly into the eyes, which is consistent with human visual perception. Your eyes would stay comfortable even after long viewing sessions.

**250000**

**Designed for Longevity**

**25,000+ Hours Longevity**

Enjoy 25,000+ hours of entertainment. That's over 10,000 movies, or over 18 years if you were to watch for 4 hours every single day!
