and more...

## Dual Application:

- 10 Way Distribution Amplifier  
Quadplex TV/DAB/FM/CCTV
- Return-Path Amplifier Option

We have now repurposed the starBox as a 10-Way Amplifier by using a jumper cable (not included):

- Enjoy a multitude of devices on up to 10 TVs
- Simplified installation with all devices distributed via a single cable
- Utilise existing coaxial cable for effortless system modification
- Amplification compensates for loss of splitting the signal
- Available in 5-way or 10-way

\*Requires COFDM Modulator
